Career Action Plan

What do I know?

What career(s) are you considering? What do you know about the career(s)? Why did you choose that or those careers? What are your realistic goals at this time? What do you know about yourself and your personal situation that may affect your career plan? What has to be done in order to reach your goal(s)? What steps did you take already? What skills do you have? What problems do you have? What college programs did you consider (if any)? Include other information that you think is important.
